GÜTTLER®
Leading in Soil Structure

GreenMaster EcoLine
The low-priced basic device.
6.00 m foldable

The new EcoLine version of the GreenMaster series is the ideal entry-level solution for small and medium-sized farmes.

The model combines a compact, evident concept with long-time proven components and pracitcal features.

- 2 rows NonStop-sprung tines Ø12 mm, 75 mm spacing
- Protection against loss of tines
- Hydraulic folding
- Centre double gauge wheels, outside 2 single gauge wheels
- Preparation seeding technology (mounting plate) for mounting the pneumatic seeder
- Support feet for parking in working position

The advantages of the GreenMaster EcoLine

The GreenMaster Ecoline offers a complete grassland combination for medium to small farms.

- ✓ Entry into the 6 metre class
- ✓ Two-part folding
- ✓ Lightweight construction – for tractors with 80 hp or more
- ✓ Can optionally be parked folded
- ✓ Option: coupling kit for Prismenwalze® linkage

Technical data

GÜTTLER

Solid construction with proven components

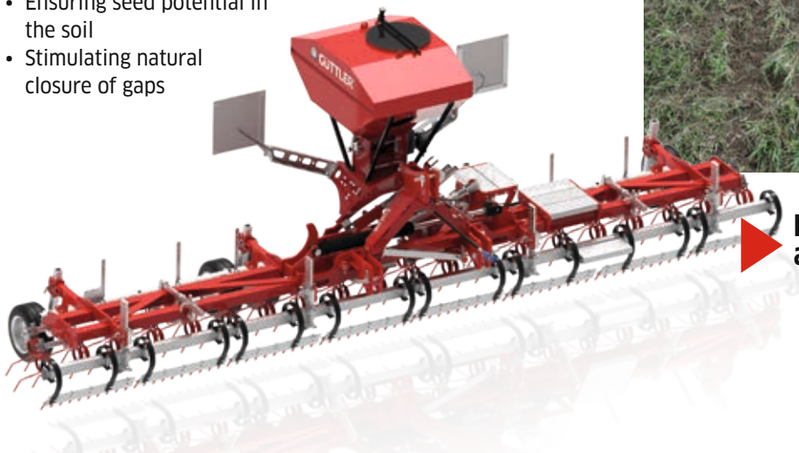

Successful pasture management

Pasture management in spring
- Closing gaps, levelling mice and molehills, stimulate tillering, spreading slurry

Remediation pasture in summer
- Raking meadow grass
- Creating space for seeds

Reseeding pasture in autumn
- Ensuring seed potential in the soil
- Stimulating natural closure of gaps

System GreenMaster for meadow processing

1. The weather must be favourable
2. Harrow several times crosswise
3. Removing the raked meadow grass
4. Reseeding – requires light, air, water, and good soil contact
5. Quick separation of the harrow and roller

Effective against meadow grass
